PSI & QUANTOS

Built for maximum response and control, our High Performance boots deliver the precision, support, and comfort demanded by advanced riders. Designed for aggressive all-mountain riding, high-speed carving, powder lines, and powerful park sessions, they combine premium materials with advanced closure systems for a locked-in feel and explosive energy transfer.

The all-new PSI raises the bar with unique Triple BOA® Zone Lacing for a fully customized fit, BOA® Perform Fit™ Wrap for superior heel hold, and an aramid-reinforced shell for ultralight durability and all-day warmth.

The QUANTOS features BOA® Focus for independent upper and lower zone adjustment, an Ankle Brace for increased stability, and a heat-reflective liner to keep feet warm and responsive in all conditions.

PERFECTLY TUNED FIT

Triple BOA® or BOA® Focus systems let you fine-tune your fit for comfort, support, and zero pressure points.

POWER WHEN YOU NEED IT

Targeted support zones lock your heel and stabilize your stance for instant response in turns, jumps, and landings.

CUSTOM COMFORT ALL SEASON

Heat-moldable liners adapt to your foot shape for lasting comfort, support, and performance.
