

RAKER & CLAIRE

Built for riders who demand premium comfort, a precise fit, and powerful response, RAKER and CLAIRE are core-performance boots perfect for all-mountain, powder, and park riding. They feature a BOA® Coiler closure on the shell and BOA® Zone Control in the liner, allowing fully independent adjustments inside and out. This ensures a locked-in feel without pressure points, maximum heel hold, and responsive energy transfer. A balanced flex profile combines support and comfort for confident riding in any terrain.

CLAIRE is the women-specific counterpart to the RAKER – with a fit and cuff shape adapted to the female foot and leg anatomy for improved comfort, stance, and efficiency.

FULL FIT CONTROL

BOA® systems on shell and liner let you fine-tune your fit inside and out for unmatched comfort and hold.

CONFIDENCE IN EVERY TURN

Balanced flex and targeted support deliver control and response across all terrains and tricks.

TAILORED COMFORT

Heat-moldable liner adapts to your foot; women-specific fit in CLAIRE ensures optimal comfort and efficiency.
